

South & Washington - Aug. 26/61

CROMWELL ROAD,

SOUTH KENSINGTON,

My Dear Mr. Watson S.W.

In the East Chamber  
of the Herbarium, on the  
shelves, are copies in sheets,  
of my Botany of 'Milnes'  
Exploring Expedition, text in  
4<sup>th</sup> plates in folio. Kindly  
put up a copy, address to  
'The British Museum, Botani-  
cal Department, Care of  
Dr. Carruthers,' and send  
to The Smithsonian Institution  
for transmission here.

That is, unless you should be sending otherwise a pack of direct, which I suppose is not so likely.

I am glad to hear something to offer the Herbarium here. Dr. Bennett is anxious to supply us with certain duplicates of interest to us, but is allowed to do so only in view of an equivalent in exchange.

And in this regard, let me ask you to open a pigeon-hole for Brit. Mus., and to put into it desirable duplicates whenever they turn up.
